There are many reasons to celebrate women in science and our journal would like to take this opportunity to highlight women in the scientific field of metabolomics. We believe this matters now and in the future. At *Metabolomics*, we encourage diversity at all levels (gender, age, geography and career stage being some examples), we promote equality and embrace inclusivity. This month's front cover is one of several that will highlight the varied demographic perspectives within our metabolomics community.

As a relatively new science, we believe that a good level of diversity already exists within metabolomics and our journal, but we can always do better. As the Editor-in-Chief of this journal I would welcome your views on this via email.

It is a good thing to celebrate people who are succeeding in all areas of science, and metabolomics is no different. I am not going to name people in this editorial. A list of researchers highlighted on the front cover is supplied at the end of this article. I would like to highlight that our cover includes many influential female leaders in metabolomics who have made substantial contributions to our field, and our field is better because of these contributions.

Several of the individuals featured on our front cover have established metabolomics as a new resource in their own countries, and continue to support this field to flourish, extending this impact beyond their own national borders and onto the worldwide stage. Some have helped to shape the *Metabolomics Society* and will do so in the future. Some play pivotal roles in our journal both historically and moving forward. All these contributions are highly appreciated in our scientific community.

We hope that by highlighting and celebrating women in metabolomics this will inspire and empower the researchers of tomorrow.

Below features the list of *Women in Metabolomics* from left to right:

Row 1:

- Sofia Moco, Vrije Universiteit Amsterdam, The Netherlands.
- Jessica Lasky-Su, Brigham and Women's Hospital and Harvard Medical School, Boston MA, USA.
- Cristina Legido-Quigley, Systems Medicine Lab, King's College London, UK & Steno Diabetes Center Copenhagen, Denmark.
- Laura Bindila, Institute of Physiological Chemistry, University Medical Center of J.G.U. Mainz, Duesbergweg 6, 55,128, Mainz, Germany.
- Ingela Lanekoff, Department of Chemistry for Life Sciences, Uppsala University, Sweden.
- Laura Lyons, Aberystwyth University, Wales, UK.
- Susan Sumner, University of North Carolina at Chapel Hill, USA.
- MJ Pilar Martinez Martin, Aberystwyth University, Wales, UK.
- Veronika Pettersen, Department of Medical Biology, Faculty of Health Science, UiT Norges arktiske universitet, Norway.
- Margaret Martin, Tufts University, USA.
- Yulan Wang, Singapore Phenome Center, Lee Kong Chian School of Medicine, Nanyang Technological University, Singapore.
- Maria Fedorova, Center of Membrane Biochemistry and Lipid Research, University Hospital Carl Gustav Carus and Faculty of Medicine of TU Dresden, Dresden, Germany.

Row 2:

- Evelyn Rampler, Department of Analytical Chemistry, University of Vienna, Vienna, Austria.

- Ewy Mathé, National Center for Advancing Translational Sciences (NIH), USA.
- Carina Mels, Hypertension in Africa Research Team, North-West University, South Africa.
- Lungile Sitole, University of Cape Town (UCT), South Africa.
- Agnieszka Smolinska, Maastricht University, NUTRIM, The Netherlands.
- Alessandra Sussulini, University of Campinas (UNICAMP), Brazil.
- Raquel Cumeras, Institut d'Investigació Sanitària Pere Virgili (IISPV), Spain.
- Elizabeth Want, Imperial College London, UK.
- Dajana Vuckovic, Concordia University, Canada.
- Yu Xia, Tsinghua University, Beijing, China.
- Yan Zhou Chen, Tufts University, USA.

Row 3:

- Emma Schymanski, University of Luxembourg, Luxembourg.
- María Eugenia Monge, Centro de Investigaciones en Bionanociencias (CIBION), Consejo Nacional de Investigaciones Científicas y Técnicas (CONICET), Argentina.
- Marta Cascante, Universitat of Barcelona, Spain.
- Kati Hanhineva, Food Sciences unit, University of Turku, Turku, Finland & School of Medicine, Institute of Public Health and Clinical Nutrition, University of Eastern Finland, Kuopio, Finland.
- Mariana Santos, MRC Laboratory of Medical Sciences (LMS), UK.
- Farhana Pinu, Bioeconomy Science Institute, New Zealand.
- Tracey Schock, National Institute of Standards and Technology, USA.
- Rosário Domingues, Lipidomic Laboratory, University of Aveiro, Portugal.
- Lynn Vanhaecke, Laboratory of Integrative Metabolomics, Ghent University, Belgium.
- Julia Kuligowski, Health Research Institute La Fe, Valencia, Spain.
- Laura Schnackenberg, National Center for Toxicological Research, US Food & Drug Administration, Jefferson, USA.

Row 4:

- Amanda Lloyd, Aberystwyth University, Wales, UK.
- Claudia Langenberg, Precision Healthcare University Research Institute, Queen Mary University of London, UK & Berlin Institute of Health at Charité – Universitätsmedizin Berlin, Germany.

- Susan Murch, Chemistry, The University of British Columbia, Canada.
- Jennifer Kirwan, Veterinärmedizinische Universität Wien, Vienna.
- Stacey Reinke, Edith Cowan University, Australia.
- Nichole Reisdorph, University of Colorado Anschutz Medical Campus, USA.

Row 5:

- Rachel Kelly, Channing Division of Network Medicine, Brigham and Women's Hospital and Harvard Medical School, Boston, USA.
- Elaine Holmes, Murdoch University, Australia & Imperial College London, UK.
- Soha Hassoun, Tufts University, USA.
- Julijana Ivanisevic, Faculty of biology and medicine, University of Lausanne, Switzerland.
- Christina Jones, National Institute of Standards and Technology, USA.
- Rima Kaddurah-Daouk, Duke University, USA.

Row 6:

- Nicola Gray, Murdoch University, Australia.
- Brianna Garcia, Woods Hole Oceanographic Institution, USA.
- Melissa Fitzgerald, College of Agriculture, University of Al Dhaid, Sharjah, UAE.
- Tuulia Hyötyläinen, School of Science and Technology, Örebro University, Sweden.
- Audrey Le Gouellec, University Grenoble Alpes - TIMC Laboratory & CHU Grenoble Alpes, France.
- Silvia Radenkovic, Metabolic Diagnostics, Department of Genetics, University Medical Center Utrecht, The Netherlands.
- Natasa Giallourou, Metabolon Inc., Cyprus.
- Helen Gika, Department of Medicine, Aristotle University of Thessaloniki, Greece.
- Sarah Hancock, Victor Chang Cardiac Research Institute, Darlinghurst, NSW, Australia.
- Caroline Johnson, Yale School of Public Health, USA.

Row 7:

- Justine Bertrand-Michel, MetaboHUB-MetaToul, Inserm, France.
- Annie Evans, Metabolon, Inc., 617 Davis Drive, Suite 100, Morrisville, NC, USA.
- Koel Chaudhury, School of Medical Science & Technology (SMST), Indian Institute of Technology Kharagpur, India.

- Anne Bendt, SLING at National University of Singapore, Singapore.
- Susan S. Bird, Thermo Fisher Scientific, USA.
- Candice Ulmer Holland, U.S. Department of Agriculture (USDA), Food Safety and Inspection Service (FSIS), 950 College Station Road, Athens, GA, USA.
- Ana Gil, Department of Chemistry and CICECO-Aveiro Institute of Materials, University of Aveiro, Portugal.
- Guro Giskeødegård, Norwegian University of Science and Technology, Norway.
- Sastia Putri, The University of Osaka, C3 Building, Global Food and Agricultural Technology Lab., 2-1 Yamadaoka, Suita City, 565-0871, Japan.
- Simone Rochfort, Agriculture Victoria Research/School of Applied Systems Biology, La Trobe University, Australia.
- Krista Zanetti, National Institutes of Health, Bethesda, Maryland, USA.
- Erin Baker, University of North Carolina at Chapel Hill, 131 South Rd, Caudill Laboratory 017, Chapel Hill, NC, USA.
- Cristina Andres-Lacueva, University of Barcelona-CIBERFES-ISCI, Spain.
- Coral Barbas, CEMBIO, Universidad San Pablo CEU, Madrid, Spain.
- Lorraine Brennan, University College Dublin, Ireland.
- Aurelia Williams, North-West University, Potchefstroom campus, South Africa.
- Madeleine Ernst, Danish Center for Neonatal Screening, Department of Congenital Disorders, Statens Serum Institut, 2300 Copenhagen, Denmark.
- Mónica Cala, Universidad de los Andes, Bogotá, Colombia.
- Joanna Godzien, Medical University of Białystok, Poland.
- Ute Roessner, Australian Research Council, Australia.
- Livia Eberlin, Baylor College of Medicine, Houston TX, USA.
